Summary

Experienced project leader with hands-on expertise across diverse technologies and industries. I am committed to fostering work environments where people are valued. My leadership philosophy focuses on **empowering teams**, **driving innovation**, and solving complex problems without sacrificing the well-being of individuals.

I have successfully managed operations for multiple projects, led cross-functional teams, and overseen the **full product development lifecycle**. My goal is to contribute to an organization that prioritizes empowering people.

Experience

Project Manager at ADSMN

Dec 2023 – Oct 2024 • Mumbai – Maharashtra

- Drove strategic alignment by overseeing client relationships, managing project estimations, and defining success criteria.
- Provided architectural guidance by selecting and validating optimal tech stacks (**React, Azure**) ensuring scalability.
- Led and mentored development teams, translating client requirements into actionable objectives.
- Managed Agile sprints ensuring on-time delivery and adaptive planning based on feedback.

Project Manager at TIU Consulting

Sept 2021 – Nov 2023 • Nagpur – Maharashtra

- Managed a team of 8 developers, consistently delivering projects **on time and within budget**.
- Improved operational efficiency by monitoring daily workflows and coordinating efforts.
- Defined clear project blueprints by collaborating with stakeholders to finalize scope and feasibility.
- Directed the full product development lifecycle from concept through launch.

Project Manager at Tipstat

May 2020 – Aug 2021 • Bengaluru – Karnataka

- Orchestrated seamless project delivery by coordinating cross-functional resources and vendors.
- Cultivated strong client relationships, acting as the primary bridge to manage expectations.
- Spearheaded the full product lifecycle through design, construction, and market launch.
- Guided the team in leveraging diverse tech stacks including **Python, NodeJS, AWS, MongoDB, and Azure**.

Project Manager at Tyche Wellness

Sept 2018 – April 2020 • Bengaluru – Karnataka

- Led a cross-functional Agile team of 8 to deliver seamless web and mobile solutions.
- Owned the complete project lifecycle from feature development to bug resolution.
- Streamlined release cycles using **Kanban methodologies**.
- Optimized roadmap execution by prioritizing critical changes to meet deadlines.

Microsoft

April 2007 – Dec 2017 (10 Years) • Bengaluru – Karnataka

Experience acquired through continuous professional growth and promotions across multiple key roles.

Learning And Development Specialist

- Managed publication of training content ensuring accurate delivery through the Learning Management System.
- Assisted trainers with content publication and resolved reported issues.
- Monitored reporting data for training sessions and addressed SLA breaches.

Team Leader

- Led a team of 7 engineers managing operations for Microsoft's consumer support ticketing system.
- Tracked team performance and coordinated bug resolution with backend teams.
- Implemented new workflows and supported site launches with the Service Delivery team.
